### TIPS FOR CHOOSING A PRIMARY CARE PROVIDER (PCP)

Choosing the right PCP to meet your needs is important. By doing so, you create a relationship of trust and comfort between you and your PCP.

Here are some tips:

- Think about your health goals.
- Think about your preferences for: your PCP’s gender, location and their medical interests.
- Learn more about your PCP options in this Provider Directory and online at [ghcscw.com](http://ghcscw.com) when you select “Find a Provider.”

You may change your PCP and clinic location within your network at any time.

### AREAS OF PRACTICE

PCPs generally focus on different medical areas of practice for different life stages:

- **Family Medicine** focuses on health care for the entire family.
- **Family Medicine with Obstetrics** focuses on health care for the entire family, with an emphasis on delivering babies.
- **Internal Medicine** focuses on adult medicine and complex health care. Older adults may prefer Internal Medicine because of its focus on the interrelated systems of the body and how they are affected by illness.
- **Pediatrics** focuses on childhood medicine and health care (including preventive care). A pediatric PCP may be ideal for children ages 17 or younger.

ANCILLARY CLINIC PROVIDERS

Specialty care provided by ancillary clinic providers: Members can schedule a consultation with the below ancillary clinic providers without a referral. However, some services may require prior authorization, such as: certain DME, physical therapy/occupational therapy visits, manipulations or procedures. Please call (800) 605-4327, ask for Member Services, then verify if prior authorization is needed before scheduling an appointment for care.

If your service does require prior authorization, your provider will submit a prior authorization request to the GHC-SCW care management team. Most decisions occur within four to five business days. Up to 15 days are allowed for review by the GHC-SCW care management team and/or the GHC-SCW Chief Medical Officer.
