

QUICKCARE Emergency

Emergency Care is for a life-threatening medical condition and severe symptoms that could cause serious danger to your health. Please go directly to your designated hospital emergency room for treatment (see below). But, if this isn't possible, go to the nearest emergency room or call 911.

Please alert GHC-SCW within 48 hours, or as soon as reasonably possible, of receiving Emergency Care and being admitted to a hospital. Call our Care Management department at (608) 257-5294 or toll-free at (800) 605-4327 and enter extension 4514. Health emergencies occur at any time, so please leave a message with Care Management to document your medical issue. *Please note: If these procedures are not followed, members may be responsible for full payment of services.
