

Formulary Change Notification

3/21/25

<u>Drug Name</u>	<u>Effective Date</u>	<u>Type of Change</u>
Fluticasone HFA (generic Flovent)	4/1/2025	NC* -> Tier 2 for those less than 5 years of age (no PA required)
Gelnique (oxybutynin)	3/1/2025	Removed from formulary , no longer on the market
Fesoterodine Fumarate ER tablet	2/1/2025	Tier 2 -> Tier 1
Tolterodine SR capsule	2/1/2025	Tier 2 -> Tier 1
Legend:		
*While generic Flovent is non-formulary, exceptions are made for those under 5 years of age as it is the only recommended inhaled corticosteroid in that population. Moving forward, prior authorization will not be required for those under 5 years of age, as the Navitus claims system will recognize and automatically process a claim.		
QL= Quantity Limit
