## PRIMARY CARE
The key to better health is forming a partnership with a Primary Care Provider (PCP). By understanding your needs and medical history, your PCP can best treat and care for you. Your PCP can see you for a wide variety of health care services, including preventive care, managing an illness or injury, help coordinating your care, connecting you to Specialty Care, and other needs. Our PCPs are located in Primary Care Clinics throughout our service area:

### Care can be received at any of the following:
- Black Earth Medical Clinic, Lodi Medical Clinic, Plain Medical Clinic, River Valley Medical Clinic, Prairie Clinic, Reedsburg Area Medical Center Physicians Group, Divine Savior Portage Clinic, Divine Savior Crossroads Clinic (Oxford), Divine Savior Pardeeville Clinic.

### SPECIALTY CARE OUTSIDE OF GHC-SCW CLINICS
Prior Authorization may be required for these services.

CHOOSING A PRIMARY CARE PROVIDER (PCP)

Choosing the right PCP to meet your needs is important. By doing so, you create a relationship of trust and comfort between you and your PCP. Here are a few tips for choosing a PCP that’s right for you:

» Ask yourself if the following are important in your PCP choice: the gender of your PCP, the location of your PCP, and the medical interests of your PCP.

» Learn more about your PCP options by reviewing this Provider Directory or online at ghscw.com when you select “Find a Provider”.

You may change your Primary Care Provider and clinic location within your network at any time.

TYPES OF PRIMARY CARE PROVIDERS (PCPs)

PCPs generally focus on different types of medicine for different life stages:

» Family Medicine focuses on health care for the entire family, with an emphasis on care for all ages.

» Family Medicine with Obstetrics focuses on health care for the entire family, with an emphasis on delivering babies.

» Internal Medicine focuses on adult medicine and complex health care. Older adults may prefer Internal Medicine because of its focus on the interrelated systems of the body and how they are affected by illness.

» Pediatrics focuses on childhood medicine and health care (including preventive care). A Pediatric PCP may be ideal for children ages 17 or younger.
ANCILLARY CLINIC PROVIDERS

Specialty care provided by Ancillary Clinic Providers: Members can schedule a consultation with the below Ancillary Clinic Providers without a referral. However, some services may require prior authorization, such as: certain DME, PT/OT visits, manipulations, or procedures. Please call Member Services at (800) 605-4327, press 0 to ask for Member Services and then verify if prior authorization is needed prior to receiving care.

If your service does require prior authorization, your provider will submit a prior authorization request to the GHC-SCW Care Management team. Most decisions occur within 4-5 business days. Up to 15 days are allowed for review by the GHC-SCW Care Management team and/or the GHC-SCW Chief Medical Officer.
