

LGBTQIA+ Care

Health care should be inclusive, safe and empowering.

GHC-SCW knows the importance of providers who understand you and support you on your health care journey. We are committed to providing care that builds trust so that you and your family can feel comfortable to show up as your whole selves in our clinics.

GHC-SCW Affirming Care

At GHC-SCW, we believe in treating all people with dignity and respect. Members have the right to individualized and patient-centered care without discrimination based on sexual orientation, gender identity, or gender expression. We support and recognize all family structures, regardless of legal recognition.

Members may designate a name in use (different than their legal name), an updated legal sex (including the option for legal sex of X), gender identity, and pronouns within the medical record.

GHC-SCW Member Services also has a list of experienced providers who offer medical management for gender affirming care.

GHC-SCW Primary Care

At GHC-SCW, gender affirming care is primary care. All Primary Care Providers (PCPs) at GHC-SCW strive to provide inclusive and affirming comprehensive care coordination for members who identify as LGBTQIA+.

Our PCPs are committed to:

- Respecting and affirming your sexual orientation, gender identity, and gender expression.
- Supporting and celebrating diverse families.
- Partnering with you to promote and maintain your physical, mental and emotional well-being.
- Understanding your health history and your goals for your future health and wellness.
- Coordinating high-quality preventive health care and evidence-based management of your health conditions.

GHC-SCW Behavioral Health

Patient-centered care is at the heart of treatment provided by GHC-SCW behavioral health providers.

Our behavioral health providers:

- Regularly seek education to improve knowledge of LGBTQIA+ and culturally responsive care.
- Collaborate with all care team members to support comprehensive care for patients.
- Hold space to allow each individual to exist as their authentic self.
