

Autism Spectrum Disorder (ASD) Program at GHC-SCW

WHAT AND WHO:

The GHC-SCW Autism Spectrum Disorder (ASD) Program provides neuroaffirming and inclusive evidence-based services to children diagnosed with ASD aged 4-16 years and their parents/caregivers. Services are offered in a 1 to1 or group setting.

The program provides opportunities for children and their parents/caregivers to learn about social skills and emotion regulation.

Children work with a therapist to learn a new skill each week. Parents learn how to support their children's development, coaching them to practice and generalize their skills.

Children must be able to communicate in full sentences (augmentative and alternative communication included). Interpreter services are available for a variety of languages.

WHERE:

Depending on the child's needs, programs are offered:

- Individually, in the child's home (in-home appointments must be in Dane County)
- Virtually
- At a GHC-SCW clinic (group appointments only)

HOW:

For more information:

- If interested in starting these services, reach out to your child's primary care provider for a referral.
- For general questions about the program call [\(608\) 441-3290](tel:6084413290) and ask for the ASD Program.
- Visit the [GHC-SCW Autism Spectrum Disorder Program](#) page on our website.

WHEN:

Each appointment is:

- Individual or in a group
- 90 minutes long
- Once per week for 10 to 16 weeks
