

GHC-SCW Health Underwriting Questionnaire

Introducing Our Electronic Underwriting Questionnaire

At GHC-SCW, we're committed to making your health insurance experience as seamless and efficient as possible. Our latest innovation is a HIPAA-compliant, customized electronic underwriting questionnaire designed specifically for large groups with fewer than 51 enrollees that are not able to obtain claims, utilization or MLR data to ensure a faster, more accurate quote.

Larger groups with 51+ enrollees that have access to claims, utilization or MLR data can obtain a final quote without submitting individual employee health underwriting questionnaires.
