Tips for choosing a Primary Care Provider (PCP)

It's important to choose a PCP who meets your needs and can be a source of trust.

Here are some tips:

- Think about your health goals.
- Think about your preferences for your PCP's gender, location and their medical interests.
- Learn more about your PCP options in this Provider Directory and online at ghcscw.com when you select the "Find a Provider" button.
- You may change your PCP and primary clinic location within your network at any time.

Visit ghcscw.com to view details about PCPs online, including their medical background, education, languages spoken and more.

Primary Care

The key to optimal health is forming a partnership with a Primary Care Provider (PCP). By understanding your needs and medical history, your PCP can best care for you.

Your PCP can:

- Treat a wide variety of health care needs and provide preventive care.
- Help you manage an illness or injury.
- Coordinate your care with Specialty Care Providers.

Find exceptional PCPs in primary care clinics throughout Dane County:

Areas of Practice

PCPs generally focus on different medical areas of practice for different life stages:

- **Family Medicine** focuses on health care for the entire family, with an emphasis on care for all ages.
- **Family Medicine with Obstetrics** focuses on health care for the entire family, with an emphasis on delivering babies.
- **Internal Medicine** focuses on adult medicine and complex health care. Older adults may prefer Internal Medicine because of its focus on the interrelated systems of the body and how they are affected by illness.
- **Pediatrics** focuses on childhood and adolescent medicine, including preventative health care. A pediatric PCP may be ideal for children and youth ages 19 or younger with special health care needs. Most Family Medicine PCPs also have extensive pediatric experience.

GHC-SCW seeks to collect race and ethnicity information from our network providers. You can obtain a provider's race and ethnicity information by contacting the Member Services team by phone, weekdays from 8 a.m. – 5 p.m., at **(608) 828-4853** or toll-free at **(800) 605-4327** and request Member Services. Care Guide

GET CARE

Specialty and Ancillary Services at GHC-SCW

GHC-SCW members have access to outstanding specialty and ancillary services at our GHC-SCW-owned and operated clinics.

Eye Care

GHC-SCW optometry schedules are open at least 12 months in advance, so contact them early to get a time that fits your schedule. **Make an appointment through GHCMYChartSM or call (608) 257-7328.**

Physical and Occupational Therapy (PT/OT)

Our PT and OT staff work directly with your PCP to make sure you're receiving comprehensive treatment for your injury or condition. **Call (608) 662-5060 to schedule a standard PT/OT appointment or an Urgent Care PT/OT appointment.**

Dermatology

Dermatologists provide full-spectrum care including diagnosis, treatment, skin biopsies and light therapy in addition to treating conditions of the hair, nails and scalp. **Call your primary care clinic or (608) 661-7200 to schedule an appointment.**

Sports Medicine

Sports medicine providers care for active people, athletes and individuals with non-operative musculoskeletal conditions, as well as ongoing care of acute and overuse injuries. Treatment includes medical and injection therapies and collaboration with PT/OT. **Call your primary care clinic or (608) 661-7200 to schedule an appointment.**

Behavioral Health

We offer a full range of behavioral health and addiction services for children, adolescents and adults. Members have access to both GHC-SCW behavioral health providers and contracted providers in our community. Members can schedule with GHC-SCW outpatient behavioral health providers directly, without a referral, by contacting our behavioral health call center at (608) 441-3290. They can also visit our behavioral health page on ghcscw.com for a comprehensive search engine of behavioral health providers within GHC-SCW clinics and within our contracted network of providers in the community. GHC-SCW also contracts with several substance use providers within the community, including UW Health Behavioral Health and Recovery -

(608) 282-8270. Please use the search engine for a complete list of substance use providers.

Some PCPs prescribe medications for substance use disorders. Please contact your primary care clinic for more information.

For Urgent and Emergency Behavioral Health Crisis

- **Behavioral Health 24/7 Crisis Line:** For immediate help with an urgent mental health crisis, 24-hour crisis intervention services are available for GHC-SCW members.
- **Monday - Friday Business Hours:** If you are experiencing a behavioral health emergency, including thoughts of suicide, **call GHC-SCW at (608) 441-3290 from 8 a.m. - 5 p.m., Monday - Friday.**
- **Nights and Weekends:** For crisis intervention services outside of business hours, call **(608) 257-9700.** You will be assisted by a nurse or an on-call crisis counselor who will help you to address your behavioral health emergency and any safety concerns.
- **PLEASE NOTE:** After-hours behavioral health crisis line **DOES NOT** prescribe medications, cancel or make appointments, send messages to your BH provider or connect you to your BH provider after-hours. For these services, please call during business hours Monday - Friday.

If your situation is immediately life-threatening, please call 911 or safely get yourself to the nearest emergency room.

Chiropractic

GHC-SCW has a team of chiropractors who can work to adjust or realign your spine and help reduce pain and discomfort. You might use chiropractic care if you have back or neck pain, get headaches or even if you have pain in your arms or legs. Talk to your primary care provider to see if chiropractic care is the right choice for you.

Clinical Health Education (CHE)

CHE staff include Diabetes Care Specialists, Dietitians, a Respiratory Educator, a Lactation Consultant, and a Genetic Counselor. CHE helps you learn about your health and how to prevent or manage chronic conditions. CHE Providers may help you create an individualized plan to improve your health, based on credible and easy-to-understand health information.

Common Terms

COMMON TERMS

The following terms and explanations are here to help guide you. They are not definitions. For definitions, refer to your Member Certificate.

Care Management is here to assist members in navigating their insurance benefits. Their primary goal is getting our members to the right place at the right time and for the right reason. This goal is accomplished through three primary functions: Utilization Management, Care Coordination and Case Management.

Care Teams are a unique and member-focused approach to providing care to members. In GHC-SCW-owned clinics, a team of medical experts use their skills and expertise to work together to provide exceptional and coordinated care that supports members. The care team includes: Primary Care Providers (Physicians, Certified Physician Assistants and Advanced Practice Nurse Prescribers), Registered Nurse Coordinators, Clinical Case Managers, Care Team Specialists, Behavioral Health Consultants and Pharmacists.

Care Team Specialists are key players on care teams (found within GHC-SCW-owned clinics) who support the Primary Care Provider during a member's visit. They also gather information about a member's health and assist with member communication. A Care Team Specialist can be a Licensed Practical Nurse or a Certified Medical Assistant.

Case Managers are Registered Nurses and Social Workers who provide health education and care coordination, address barriers to care, collaborate with other members of a members health care team including Primary and Specialty Care providers, and connect members to resources (in-house or community). Members are accepted into Complex Case Management by meeting enrollment criteria.

A **Certified Physician Assistant (PA-C)** and an **Advanced Practice Nurse Prescriber (APNP)** are qualified, licensed health care professionals with extensive academic training and clinical experience. They provide a range of services, such as routine physical examinations along with evaluation and management of common medical problems. Like the GHC-SCW Primary Care Providers, PA-C and APNP are certified and committed to personalized comprehensive health care for you and your family.

Clinical Health Education (CHE) helps you learn about your health and how to prevent or manage chronic conditions. CHE Providers may help you create an individualized plan to improve your health, based on credible and easy-to-understand health information.

Emergency Care is care for a life-threatening medical condition that includes severe symptoms, which could cause serious jeopardy to a person's health.

Family Medicine involves broad training and may include expertise in the areas of obstetrics and gynecology, pediatrics or internal medicine. Family medicine concentrates on health care for the entire family, with an emphasis on continuity of care for all ages. Family Medicine Providers are ideal for members who have families or anticipate having children.

A **formulary** is a list of covered prescription drugs under a benefit plan. They have been proven to be safe, effective and cost-efficient. As a member of GHC-SCW, your prescription drug coverage includes only the drugs listed on the GHC-SCW Formulary, except in certain cases of medical necessity.

Internal Medicine specializes in adult medicine and complex health care. The focus is on the interrelated systems of the body and how they are affected by illness. Older adults often prefer Internal Medicine Providers for this reason. An Internal Medicine Provider may be a good choice if you or your family members are over the age of 16.

In-Plan Primary and Specialty Care is provided by a panel of providers under contract with GHC-SCW. Prior authorizations for specialty care are limited to this panel of contracted providers. Prior authorization is required to seek specialty care outside the panel of contracted providers. Specialty medical care provided by a contracted non-GHC-SCW provider is not covered if the service requested may be provided by a GHC-SCW specialty provider.

COMMON TERMS

The following terms and explanations are to here to help guide you.
They are not definitions. For definitions, refer to your Member Certificate.

A **member** is a person who is enrolled with GHC-SCW as either a subscriber or a dependent of a subscriber.

A **network** may be considered a “path” through the health care system. GHC-SCW offers multiple networks for primary and specialty care. Benefits coverage is only provided to members who stay within their chosen network.

Pediatrics focuses on the special health conditions of childhood and adolescence, as well as a wide range of preventive services. A Pediatrician will coordinate the necessary health screenings and immunizations to help your child stay healthy. Children age 19 or younger often see a Pediatrician to coordinate their primary care.

Pharmacists are knowledgeable professionals that help with medication needs. They provide medication consultations and explain medication information. Professional pharmacists have completed either a Bachelor of Science in Pharmacy or a Doctor of Pharmacy degree program at an approved and accredited College of Pharmacy. They have also passed several licensing examinations.

Primary Care is the first point of contact for the member within the health care system. It includes a broad spectrum of health care services and preventive care. The aim of primary care is to provide a foundation for good health and to coordinate the care that the patient receives.

A **Primary Care Provider (PCP)** is a health care provider who provides primary care to the member. The PCP also helps to provide continuity of care and to coordinate services, if necessary, with recommended Specialty Care Providers. A PCP may be a Family Medicine Physician, an Internal Medicine Physician, a Pediatrician, a Physician Assistant or a Nurse Practitioner.

Prior Authorization is the process of approving specialty care services and specific procedures or services when needed, based on appropriateness of care and location.

A **Registered Nurse (RN)** is a professional nurse who has completed a course of study at an approved and accredited school of nursing and who has passed the National Council of Licensure Examination. RNs are licensed to practice by individual states.

Specialty Care is care for a specific condition, or care to provide diagnosis and treatment by a provider with training in a particular field of medicine.

A **Specialty Care Provider** is an individual, team or facility who provides specialty care to the member. Specialty Care Providers specialize in one or more fields of medicine and have developed advanced skills in that area.

Urgent Care is same-day or after-hours care for non-life-threatening conditions that require immediate attention, or persistent or unusual discomfort associated with an illness. Some examples of urgent care include colds and flu, migraine headaches and minor injuries.

Your Rights & Protections Against Surprise Medical Bills

When you get emergency care or get treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing.

What is “balance billing” (sometimes called “surprise billing”)?

When you see a doctor or other health care provider, you may owe certain out-of-pocket costs, such as a copayment, coinsurance, and/or a deductible. You may have other costs or have to pay the entire bill if you see a provider or visit a health care facility that isn't in your health plan's network.

“Out-of-network” describes providers and facilities that haven't signed a contract with your health plan. Out-of-network providers may be permitted to bill you for the difference between what your plan agreed to pay and the full amount charged for a service. This is called **“balance billing.”** This amount is likely more than in-network costs for the same service and might not count toward your annual out-of-pocket limit.

“Surprise billing” is an unexpected balance bill. This can happen when you can't control who is involved in your care—like when you have an emergency or when you schedule a visit at an in-network facility but are unexpectedly treated by an out-of-network provider.

You are protected from balance billing for:

Emergency services

If you have an emergency medical condition and get emergency services from an out-of-network provider or facility, the most the provider or facility may bill you is your plan's in-network cost-sharing amount (such as copayments and coinsurance). You can't be balance billed for these emergency services. This includes services you may get after you're in stable condition, unless you give written consent and give up your protections not to be balance billed for these post-stabilization services.

Certain services at an in-network hospital or ambulatory surgical center

When you get services from an in-network hospital or ambulatory surgical center, certain providers there may be out-of-network. In these cases, the most those providers may bill you is your plan's in-network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. These providers can't balance bill you and may not ask you to give up your protections not to be balance billed.

If you get other services at these in-network facilities, out-of-network providers **can't** balance bill you, unless you give written consent and give up your protections.

You're never required to give up your protections from balance billing. You also aren't required to get care out-of-network. You can choose a provider or facility in your plan's network.

When balance billing isn't allowed, you also have the following protections:

You are only responsible for paying your share of the cost (like the copayments, coinsurance, and deductibles that you would pay if the provider or facility was in-network). Your health plan will pay out-of-network providers and facilities directly.

Your health plan generally must:

- Cover emergency services without requiring you to get approval for services in advance (prior authorization).
- Cover emergency services by out-of-network providers.
- Base what you owe the provider or facility (cost-sharing) on what it would pay an in-network provider or facility and show that amount in your explanation of benefits.
- Count any amount you pay for emergency services or out-of-network services toward your deductible and out-of-pocket limit.

If you believe you've been wrongly billed, you may contact the U.S. Department of Health & Human Service (HHS) at 1-800-985-3059.
