Getting Started with GHC-SCW

It's important to choose a PCP who meets your needs and can be a source of trust.

Tips for choosing a PCP:

- Think about your health goals.
- Think about your preferences for your PCP's gender, location and their medical interests.
- Learn more about your PCP options in this Provider Directory and online at ghcscw.com when you select the "Find a Provider" button.

You may change your PCP and primary clinic location within your network at any time.

Areas of Practice:

PCPs generally focus on different medical areas of practice for different life stages:

- **Family Medicine** focuses on health care for the entire family, with an emphasis on care for all ages.
- **Family Medicine with Obstetrics** focuses on health care for the entire family, with an emphasis on delivering babies.
- **Internal Medicine** focuses on adult medicine and complex health care. Older adults may prefer Internal Medicine because of its focus on the interrelated systems of the body and how they are affected by illness.
- **Obstetrics and Gynecology** focuses on obstetrics and gynecology, including preventive care.
- **Pediatrics** focuses on childhood medicine and health care (including preventive care). A Pediatric PCP may be ideal for children ages 19 or younger.

Urgent Care

Anytime you need medical care (except for in an emergency), you should first call your primary care clinic to check for an available appointment. If nothing is available, urgent care is available for non-life-threatening conditions that need to be treated the same day or after business hours. These conditions usually cause unusual discomfort.

Appointments are required for GHC-SCW's Urgent Care and are made to better serve your same-day access needs. Walk-in appointments are not available.

Urgent Care Examples include:

- back pain
- eye irritation
- simple bone fractures (not through skin)
- ear pain
- fever
- sprains
- colds and flu
- migraine headaches
- urinary burning
- cuts, scrapes or bruises
- skin rashes
- sore throats
