## Primary Care

The key to optimal health is forming a partnership with a Primary Care Provider (PCP). By understanding your needs and medical history, your PCP can best care for you. Your PCP can:

- Treat a wide variety of health care needs and provide preventive care.
- Help you manage an illness or injury.
- Coordinate your care with Specialty Care Providers.

GHC-SCW does not specifically use individual quality metrics, member experience, cost-related measures or patient safety related measures as criteria to influence the selection of practitioners or hospitals that participate in its Marketplace plans.

## Areas of Practice

PCPs generally focus on different medical areas of practice for different life stages:

- **Family Medicine** focuses on health care for the entire family, with an emphasis on care for all ages.
- **Family Medicine with Obstetrics** focuses on health care for the entire family, with an emphasis on delivering babies.
- **Internal Medicine** focuses on adult medicine and complex health care. Older adults may prefer Internal Medicine because of its focus on the interrelated systems of the body and how they are affected by illness.
- **Pediatrics** focuses on childhood and adolescent medicine, including preventative health care. A pediatric PCP may be ideal for children and youth ages 19 or younger with special health care needs. Most Family Medicine PCPs also have extensive pediatric experience.

GHC-SCW seeks to collect race and ethnicity information from our network providers. ## CARE TEAMS AT GHC-SCW

## Care Teams Work Together for a Better You

When you're a member at a GHC-SCW primary care clinic, you're part of a whole team — a care team of expert doctors, nurses and others who spend time connecting with you. Each person on the care team helps coordinate your care so you get the right care, in the right place and at the right time.

### Care Team in Action

To ensure your needs are met in a timely manner, even if your Primary Care Provider (PCP) is unavailable, others on your care team will:

- Respond to phone and GHCMYChart<sup>SM</sup> messages.
- Respond to lab test results, medication refills and change requests.
- Guide you through the pros and cons of medical treatments and procedures.

## Common Terms

### COMMON TERMS

The following terms and explanations are here to help guide you. They are not definitions. For definitions, refer to your Member Certificate.

**Care Management** is here to assist members in navigating their insurance benefits. Their primary goal is getting our members to the right place at the right time and for the right reason. This goal is accomplished through three primary functions: Utilization Management, Care Coordination and Case Management.

**Care Teams** are a unique and member-focused approach to providing care to members. In GHC-SCW-owned clinics, a team of medical experts use their skills and expertise to work together to provide exceptional and coordinated care that supports members. The care team includes: Primary Care Providers (Physicians, Certified Physician Assistants and Advanced Practice Nurse Prescribers), Registered Nurse Coordinators, Clinical Case Managers, Care Team Specialists, Behavioral Health Consultants and Pharmacists.

**Care Team Specialists** are key players on care teams (found within GHC-SCW-owned clinics) who support the Primary Care Provider during a member's visit. They also gather information about a member's health and assist with member communication. A Care Team Specialist can be a Licensed Practical Nurse or a Certified Medical Assistant.

**Case Managers** are Registered Nurses and Social Workers who provide health education and care coordination, address barriers to care, collaborate with other members of a members health care team including Primary and Specialty Care providers, and connect members to resources (in-house or community). Members are accepted into Complex Case Management by meeting enrollment criteria.

A **Certified Physician Assistant (PA-C)** and an **Advanced Practice Nurse Prescriber (APNP)** are qualified, licensed health care professionals with extensive academic training and clinical experience. They provide a range of services, such as routine physical examinations along with evaluation and management of common medical problems. Like the GHC-SCW Primary Care Providers, PA-C and APNP are certified and committed to personalized comprehensive health care for you and your family.

**Clinical Health Education (CHE)** helps you learn about your health and how to prevent or manage chronic conditions. CHE Providers may help you create an individualized plan to improve your health, based on credible and easy-to-understand health information.

**Emergency Care** is care for a life-threatening medical condition that includes severe symptoms, which could cause serious jeopardy to a person's health.

**Family Medicine** involves broad training and may include expertise in the areas of obstetrics and gynecology, pediatrics or internal medicine. Family medicine concentrates on health care for the entire family, with an emphasis on continuity of care for all ages. Family Medicine Providers are ideal for members who have families or anticipate having children.

A **formulary** is a list of covered prescription drugs under a benefit plan. They have been proven to be safe, effective and cost-efficient. As a member of GHC-SCW, your prescription drug coverage includes only the drugs listed on the GHC-SCW Formulary, except in certain cases of medical necessity.

**Internal Medicine** specializes in adult medicine and complex health care. The focus is on the interrelated systems of the body and how they are affected by illness. Older adults often prefer Internal Medicine Providers for this reason. An Internal Medicine Provider may be a good choice if you or your family members are over the age of 16.

**In-Plan Primary and Specialty Care** is provided by a panel of providers under contract with GHC-SCW. Prior authorizations for specialty care are limited to this panel of contracted providers. Prior authorization is required to seek specialty care outside the panel of contracted providers. Specialty medical care provided by a contracted non-GHC-SCW provider is not covered if the service requested may be provided by a GHC-SCW specialty provider.

## COMMON TERMS

The following terms and explanations are to here to help guide you. They are not definitions. For definitions, refer to your Member Certificate.

A **member** is a person who is enrolled with GHC-SCW as either a subscriber or a dependent of a subscriber.

A **network** may be considered a “path” through the health care system. GHC-SCW offers multiple networks for primary and specialty care. Benefits coverage is only provided to members who stay within their chosen network.

**Pediatrics** focuses on the special health conditions of childhood and adolescence, as well as a wide range of preventive services. A Pediatrician will coordinate the necessary health screenings and immunizations to help your child stay healthy. Children age 19 or younger often see a Pediatrician to coordinate their primary care.

**Pharmacists** are knowledgeable professionals that help with medication needs. They provide medication consultations and explain medication information. Professional pharmacists have completed either a Bachelor of Science in Pharmacy or a Doctor of Pharmacy degree program at an approved and accredited College of Pharmacy. They have also passed several licensing examinations.

**Primary Care** is the first point of contact for the member within the health care system. It includes a broad spectrum of health care services and preventive care. The aim of primary care is to provide a foundation for good health and to coordinate the care that the patient receives.

A **Primary Care Provider (PCP)** is a health care provider who provides primary care to the member. The PCP also helps to provide continuity of care and to coordinate services, if necessary, with recommended Specialty Care Providers. A PCP may be a Family Medicine Physician, an Internal Medicine Physician, a Pediatrician, a Physician Assistant or a Nurse Practitioner.

**Prior Authorization** is the process of approving specialty care services and specific procedures or services when needed, based on appropriateness of care and location.

A **Registered Nurse (RN)** is a professional nurse who has completed a course of study at an approved and accredited school of nursing and who has passed the National Council of Licensure Examination. RNs are licensed to practice by individual states.

**Specialty Care** is care for a specific condition, or care to provide diagnosis and treatment by a provider with training in a particular field of medicine.

A **Specialty Care Provider** is an individual, team or facility who provides specialty care to the member. Specialty Care Providers specialize in one or more fields of medicine and have developed advanced skills in that area.

**Urgent Care** is same-day or after-hours care for non-life-threatening conditions that require immediate attention, or persistent or unusual discomfort associated with an illness. Some examples of urgent care include colds and flu, migraine headaches and minor injuries.

## Your Rights & Protections Against Surprise Medical Bills

**When you get emergency care or get treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing.**

### What is “balance billing” (sometimes called “surprise billing”)?

When you see a doctor or other health care provider, you may owe certain out-of-pocket costs, such as a copayment, coinsurance, and/or a deductible. You may have other costs or have to pay the entire bill if you see a provider or visit a health care facility that isn't in your health plan's network.

“Out-of-network” describes providers and facilities that haven't signed a contract with your health plan. Out-of-network providers may be permitted to bill you for the difference between what your plan agreed to pay and the full amount charged for a service. This is called **“balance billing.”** This amount is likely more than in-network costs for the same service and might not count toward your annual out-of-pocket limit.

“Surprise billing” is an unexpected balance bill. This can happen when you can't control who is involved in your care—like when you have an emergency or when you schedule a visit at an in-network facility but are unexpectedly treated by an out-of-network provider.

### You are protected from balance billing for:

#### Emergency services

If you have an emergency medical condition and get emergency services from an out-of-network provider or facility, the most the provider or facility may bill you is your plan's in-network cost-sharing amount (such as copayments and coinsurance). You can't be balance billed for these emergency services. This includes services you may get after you're in stable condition, unless you give written consent and give up your protections not to be balance billed for these post-stabilization services.

#### Certain services at an in-network hospital or ambulatory surgical center

When you get services from an in-network hospital or ambulatory surgical center, certain providers there may be out-of-network. In these cases, the most those providers may bill you is your plan's in-network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. These providers can't balance bill you and may not ask you to give up your protections not to be balance billed.

If you get other services at these in-network facilities, out-of-network providers **can't** balance bill you, unless you give written consent and give up your protections.

*The contents of this document do not have the force and effect of law and are not meant to bind the public in any way, unless specifically incorporated into a contract. This document is intended only to provide clarity to the public regarding existing requirements under the law.*

**You're never required to give up your protections from balance billing. You also aren't required to get care out-of-network. You can choose a provider or facility in your plan's network.**

### When balance billing isn't allowed, you also have the following protections:

You are only responsible for paying your share of the cost (like the copayments, coinsurance, and deductibles that you would pay if the provider or facility was in-network). Your health plan will pay out-of-network providers and facilities directly.

#### Your health plan generally must:

- Cover emergency services without requiring you to get approval for services in advance (prior authorization).
- Cover emergency services by out-of-network providers.
- Base what you owe the provider or facility (cost-sharing) on what it would pay an in-network provider or facility and show that amount in your explanation of benefits.
- Count any amount you pay for emergency services or out-of-network services toward your deductible and out-of-pocket limit.

**If you believe you've been wrongly billed,** you may contact the U.S. Department of Health & Human Service (HHS) at 1-800-985-3059.
